Test cases for Lab 1c

Dear class,

Here is the grading script (http://web.cs.ucla.edu/~zbu/lab1c_grading_script.sh) we will use to grade your Lab 1c work. The overall score for 1c includes two parts: 30 for passing the script, and 70 for writing a decent report (see my another post). If you find any problems within the script, please comment in this post below.

Best,

Zhaoxing
